

Kings and Queens (straight in)

When Britain had this queen on the throne
They could pop champagne and raise a toast
Of all of the queens she wasn't fighting alone
Britain, you weren't dancin' on your own

Can't live without her, you wanna, but you can't, no, no, no
Think it's funny, but honey, can't run this show on your own
We can feel Great Britain shake, there's only so much it can take
She showed you how a real queen behaves, oh

No damsel in distress, don't need to save her
Once she started ruling here, you couldn't tame her
And you might think she's weak without a sword
But if she had one, it'd be bigger than yours

When Britain had this queen on the throne
They could pop champagne and raise a toast
Of all of the queens she wasn't fighting alone
Britain, you weren't dancin' on your own

Disobey her, watch out world, it's off with your head
Gonna change it and make it a world you won't forget, oh-oh, oh
No damsel in distress, don't need to save her
Once she started ruling here, you couldn't tame her
And you might think she's weak without a sword
But she's stronger than she those who came before

When Britain had this queen on the throne
They could pop champagne and raise a toast
Of all of the queens she wasn't fighting alone
Britain, you weren't dancin' on your own (4 x 8)

In chess, the king can move one space at a time
But queens are free to go wherever they like
You get too close, you'll get a royalty high
So breathe it in to feel alive (alive) (x 6)

When Britain had this queen on the throne
They could pop champagne and raise a toast
Of all of the queens she wasn't fighting alone
Britain, you weren't dancin' on your own OH-oh- oh- oh
