St John the Baptist C of E Primary School Asthma Policy

The school:

- Recognises that asthma is a widespread, serious but controllable condition and the school welcomes all pupils with asthma
- Ensures that pupils with asthma can and do participate fully in all aspects of school life, including art, PE, science, educational visits and out of hours activities
- Recognises that pupils with asthma need immediate access to reliever inhalers at all times
- Keeps a record of all pupils with asthma and the medicines they take
- Endeavours that the whole school environment, including the physical, social, sporting and educational environment, is favourable to pupils with asthma
- Ensures that all staff (including supply teachers and support staff) who
 have pupils with asthma in their care, know who those pupils are and
 know the school's procedure to follow in the event of an asthma attack.
 There is a list of asthma sufferers in school for First Aid Room and if
 inhalers are in school. Photos of children in each class.

Asthma medicines

Immediate access to reliever medicines is essential. All pupils with asthma have their reliever inhaler kept in the classroom and for children who supplied a second inhaler this is securely stored and labelled accordingly in the First Aid Room.

If a parent/carer has stated that their child requires an inhaler in school but does not supply an **in-date inhaler**, the school will take the following action:

- Phone the parent/carer and request that the inhaler is brought into school without delay. The phone call will be logged in the First Aid book. Further conversations may be appropriate, at the discretion of the school.
- If the parent/carer fails to supply the inhaler as requested, write to the parent using the example letter. This repeats the request for the inhaler and states that without the inhaler, in the event of an asthma attack, staff will be unable
 - to follow the usual Asthma Emergency inhaler procedures and will be reliant on calling 999 and awaiting the Emergency Services. The letter will be filed with the child's asthma information form.

School staff who agree to administer medicines are insured by the local authority when acting in agreement with this policy. All school staff will facilitate pupils to take their medicines when they need to.

For information on how to clean spacers please go to www.asthma4children

Record keeping

When a child joins the school, parents/carers are asked to declare any medical conditions (including asthma) that require care within school. Parents are requested to update details about medical conditions (including asthma) and emergency contact numbers if there is a change.

All parents/carers of children with asthma are given an asthma information form to complete and return to school. From this information the school keeps its asthma records. All teachers know which children in their class have asthma. Parents are required to update the school about any change in their child's medication or treatment.

Exercise and activity - PE and games

All children are encouraged to participate fully in all aspects of school life including PE. Children are encouraged/reminded to use their inhalers before exercise (if instructed by the parent/carer on the asthma form) and during exercise if needed.

School Environment

The school endeavours to ensure that the school environment is favourable to pupils with asthma. The school will take into consideration, any particular triggers to an asthma attack that an individual may have and will seek to minimise the possibility of exposure to these triggers.

Asthma Attacks - School's Procedure

In the event of an asthma attack, staff will follow the school procedure:

- Encourage the pupil to use their inhaler and ensure a First Aider is present
- If the pupil's condition does not improve or worsens, the First Aider will follow the 'Emergency asthma treatment' procedures
- The First Aider will call for an ambulance
- Parents will be notified accordingly

Access and Review of Policy

The Asthma Policy will be accessible to all staff and the community through the school's website. Hard copies can be obtained from the school office. This policy will be reviewed on a two yearly cycle.

ST JOHN BAPTIST CE PRIMARY SCHOOL

Please complete the questions below so that the school has the necessary

Dear Parent/Carer

Asthma Information Form

	ormation about your child's asthma. Please return this form withou lay.	t
	ILD'S NAME: Class:	
1.	Does your child need an inhaler in school? Yes/No	
	Please provide information on your child's current treatment. (Include the name, type of inhaler, the dose and how many puffs? Do they have a spacer?	
•••		
3.	What triggers your child's asthma?	
		•
the cle	is advised to have a spare inhaler in school. Spare inhalers may be required in event that the first inhaler runs out, is lost or forgotten. Inhalers must be arly labelled with your child's name and must be replaced before they reacle expiry date.	e
	gree to ensure that my child has in-date inhalers and a spacer (if prescribed) school.	
-	ned: Date: m the person with parental responsibility	

My child carries their own inhaler.

Please circle the appropriate statements

- My child requires a spacer and I have provided this to the school office
- My child does not require a spacer
- I need to obtain an inhaler/spacer for school use and will supply this/these as soon as possible

Does your child need a blue inhaler before doing exercise/PE? If so, how many puffs?						
 5. Do you give consent for the following treatment to be given to your child as recognised by Asthma Specialists in an emergency? Give 6 puffs of the blue inhaler via a spacer Reassess after 5 minutes If the child still feels wheezy or appears to be breathless they should have a further 4 puffs of the blue inhaler Reassess after 5 minutes If their symptoms are not relieved with 10 puffs of blue inhaler then this should be viewed as a serious attack: CALL AN AMBULANCE and CALL PARENT While waiting for an ambulance continue to give 10 puffs of the reliever inhaler 						
every few minutes Yes/No						
Signed: Date I am the person with parental responsibility						
Please remember to inform the school if there are any changes in your child's treatment or condition.						
Thank you						
Parental Upda	ite (only to be co	ompleted if your c	hild no l	onger has asthma	a)	
My child no longer has asthma and therefore no longer requires an inhaler in school or on school visits.						
Signed				Date		
I am the person with parental responsibility						
For office use:						
Tor office use.	Provided by parent (Yes/No)	Location (delete as appropriate)	Expiry date	Date of phone call requesting inhaler/spacer	Date of letter (attach copy)	
1 st inhaler		With pupil/In		,		
2 nd inhaler		classroom				
Advised		In office/first aid room				
Spacer (if		2.6				
required)						
Record any further follow up with the parent/carer:						

Example letter to send to parent/carer who has not provided an in-date inhaler. Please amend as necessary for the individual circumstances.

Dear [Name of parent]

Following today's phone call regarding [Name of pupil]'s asthma inhaler, I am very concerned that an inhaler has still not been provided. It is imperative that:

- 2 inhalers
- a spacer

are provided without delay.

Please be aware that in the absence of an inhaler, should [name of pupil] suffer an attack, staff will not be able to follow the usual Asthma Emergency inhaler procedures. They will be reliant on calling 999 and awaiting the Emergency Services.

Yours sincerely

Headteacher

Emergency asthma treatment

Asthma attacks & wheeziness

Signs of worsening asthma:

- Not responding to reliever medication
- Breathing faster than usual
- Difficulty speaking in sentences
- Difficulty walking/lethargy
- Pale or blue tinge to lips/around the mouth
- Appears distressed or exhausted
- Give 6 puffs of the blue inhaler via a spacer
- Reassess after 5 minutes
- If the child still feels wheezy or appears to be breathless they should have a further 4
 puffs of the blue inhaler
- Reassess after 5 minutes
- If their symptoms are not relieved with 10 puffs of blue inhaler then this should be viewed as a serious attack:
- CALL AN AMBULANCE and CALL PARENT
- While waiting for an ambulance continue to give 10 puffs of the reliever inhaler every few minutes
